

CORPORATE MESSAGE

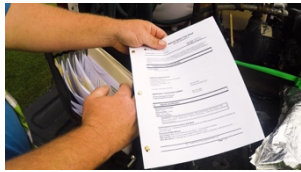

SAFETY DATA SHEETS

Any herbicide carried on any of our vehicles requires a Safety Data Sheet (SDS) and manufacturer's label at all times.

The Safety Data Sheet provides important details about the product's composition, use, handling and any hazards that the herbicide may pose.

The label also details information about use, handling, storage and toxicity of the product.

Employees should always know where the SDS sheets and labels are located and must always read them before the herbicides are used.

SAFETY VIDEOS

GOALS

REGIONAL/LOCAL OPERATIONS

Last Week

This Week

IMPORTANT REMINDER

DAILY SAFETY NUGGETS

MONDAY

What were Safety Data Sheets (SDS) formerly called?

TUESDAY

True/False... It is permissible to keep the SDS in your supervisor's truck?

WEDNESDAY

Is it permissible to use a chemical if you can get a copy of the SDS later in the day from your supervisor?

THURSDAY

Where can the product information and the hazards identification be found on an SDS?

FRIDAY

What is an example of the Signal Word on the Label or Safety Data Sheet?

SATURDAY

If you wanted to contact the manufacturer of a herbicide, where would you find the contact information?

DRIVE SAFETY TIP

ADJUST YOUR ATTITUDE

- Leave yourself *enough time* rather than trying to *make good time*
- Put yourself in the other driver's shoes
- Take a deep breath and remember escalating a situation will only make things worse.
